

Middle East Logistics: How to Clear Dubai Customs Fast and Easy by Using Kaptiche

Shipping and logistics use paper hardcopies and digital paper documents for nearly all the documentation. The Customs thoroughly verify documents such as the original Bill of Lading, packing list, Delivery Orders, and Commercial Invoices to authenticate the cargo. If you are an exporter or a Custom House Agent (CHA), you know very well how accurate the data should be, without which it is not that easy to get past the custom.

For that purpose, a productive data capture solution is of the highest importance. Kaptiche data capture software extracts your crucial data from various documents and converts them into the readable and text-searchable electronic file. But why do we need Kaptiche?
