Research report on Moti (Pinctada Maragaritifera): The herbal remedies for impotence problem contain the component Moti (Pinctada Maragaritifera). It is a black lip pearl oyster. It is responsible for the formation of pearls. A series

of steps is followed by ayurvedic experts to get the components which are derived from Pinctada Maragaritifera. Basically, the Moti powder used in herbal remedies is a very rich natural ingredient and it is widely known for its properties in improving looks. It is also linked to better health, longevity and wellbeing in Ayurveda.

Scientists had been researching on the components of these types of pearls and it was identified that the compatibility of pearl with human body is not baseless. In 2004 the discovery was made by scientists that the DNA involved in the creation of these pearls resembles human DNA and hence, it can be taken for calcium metabolism. There exists a similarity in DNA, and the crystalline structure of the pearl can help human body in metabolism. It improves absorption of proteins, minerals, amino acids and essential trace minerals. It can increase muscle regeneration and reduce cholesterol problems in body.
